Town Council Sets Estimates For Year

Will be a Slight Increase Over Last Year.

The first regular meeting of the Town Council for this fiscal year was held last Monday evening. There was a full attendance with Mayor Worts in the Chair.

After the reading of the minutes of the last meeting a communication was read from Harvey Morrison in connection with the transfer of town bonds. The communication was received and filed.

An application for old age pension for two old residents was read and the applications were approved by Council.

The Dominion Glass Co. wrote Council asking that part of the avenue running immediately North of their property and which was previously closed by by-law, be transferred to the company at price to be set by council. The request was granted.

The Ladies Auxiliary to the Legion wrote asking for the use of the old E. Crowe building on Broadway for a meeting place. The request was granted on condition they insure same and be responsible for it.

I. M. Zeigler wrote offering \$30.00 for house in Lockwood. The matter was left in abeyance till next meeting to allow for investigation.

A letter was read from L. I. J. Vernon offering current taxes for lot adjoining his house. The offer was accepted.

H. Bardell wrote offering \$30. for house on Third Street. As the Council already had a bigger bid, the offer was rejected.

A. Brydie wrote offering to sell his six ton scales to the town at a reasonable price. Council signified they were not interested in such a purchase.

The secretary was instructed to interview several builders with a view of securing an assistant assessor for this year and report at next meeting.

Council then went into a committee of the whole to set the estimates for the year. The waterworks estimate was left the same as last year—\$6,760.

The Public Works & Property Committee set their estimate at \$1,090.00 which is the same as last year.

Street Lighting and repairs was set at \$300.00. Same as last year.

The Finance Committee's estimates for expenses was set at \$3,328.25, \$450. less than last year.

Health and Relief, which is uncontrollable, was set at \$2,480 which is \$580. more than last year largely accounted for by Mothers' Allowance, Old Age Pensions, Relief, etc.

Fire Hall Maintenance was set at \$2,209.00 or \$150.00 less than last year.

License and Police—\$765. or \$40 more than last year.

Mrs. E. Filippuzzi, of Oakland, California, who has, for the past few months, been visiting her parents, Mr. & Mrs. J. Podesta, of this town, left for her home Wednesday evening. She reports having a most wonderful holiday.

Anniversary of the Relief of Ladysmith

Redcliff Man Was in the Siege of Ladysmith.

Saturday of this week will be the 31st anniversary of the relief of Ladysmith during the Boer War.

To many today the day will pass by unnoticed but there is one man in Redcliff who looks forward to the 28th of February each year with great interest. This man is Mr. George Knight, one of the few men in Canada who was in the siege of Ladysmith. As Mr. Knight is a keen observer and has a retentive memory his rehearsal of the days of the siege are most interesting.

Mr. Knight went to Africa with the 1st. Leicester regiment commonly called The Tigers, before war was declared, to do garrison duty around Cape Town, Petermaritzburg and Zululand.

He was at Dundee when war was declared. Advancing Dundee the troops were forced into Ladysmith to join Gen. Buller. On the 1st. of November, 1899 the defenders of Ladysmith were cut off and experienced some hard times till relieved by Lord Dundonald, of Gen. Buller's forces, on Feb. 28 of the following year.

Mr. Knight says that for the first two months of the siege the troops had regular provisions. After that they were cut down to ¼ rations and later to ¼ rations.

The horses rations were cut in the same proportion until finally the horse rations were left at 1 lb. of horse meat, 4 oz. of mealie bread, ¼ rations of tea and sugar, a day on these scanty rations the men had to carry 300 rounds of Ammunition, one blanket, a rifle and bayonet and go on outpost duty for the last 34 nights of the siege.

George Knight is an old soldier who has given the best years of his life in the service of his country. He joined the Imperial forces when he was 21 years of age and has served under three monarchs. He has Queen Victoria's Medal and four clasps viz. Kalana, Defense of Ladysmith, Landseker, and Belfast. Also King Edward's Medal and two clasps, 1901-1902, and two medals of the Great War.

Redcliff people hope this hero of Ladysmith may long be spared to celebrate many more anniversaries of this important event in his life.

COMING TO CAMERO

"The Trespasser," which will come to the Cameo theatre next Wednesday is a real sensational drama of modern life, with the upper social strata of Chicago as its setting.

"The Trespasser" marks Miss Swanson's return to fine clothes on the screen, the character she portrays being a woman of fashion of the hour. All of her clothes even to the jewelry and other costume accessories, were designed particularly for her and they forecast the mode months in advance.

And, in addition, the star's role is one of tremendous emotional latitude, equalling and perhaps surpassing in dramatic possibilities the outstanding screen portrayals of her career to date.

Father and Son Banquet Was A Great Success

Fathers and Sons met in goodly numbers at Gordon Memorial Church last Friday evening for their annual banquet, and the Reverend feels quite safe in saying that it has been some time since both fathers and sons more thoroughly enjoyed an evening together.

Judging from the appearance of the tables before and after the excellent dinner presided by the mothers, there is absolutely no doubt that the boys enjoyed the first part of the program at least to the "full." Nor is there any doubt that the hearts of the fathers and foster fathers swelled with pride with the excellent showing made by the boys as after dinner speakers and entertainers.

After the dinner an excellent program was conducted by chair man Rev. R. E. Pow. Mr. Pow explained the origin and objects of the Trail Rangers' organization pointing out that the objects was to develop the four fold life of the boy along physical, Moral, spiritual and religious lines. He stated the organization was now denominational as a proof he which was the fact that a Roman Catholic boy had represented the local branch at the Bops' Parliament at Edmonton.

Jas. Brown proposed the toast to the Dads. Jim's point was that in a community where the dads were of a superior quality you will find a superior quality of lads. He thanked the dads for the interest they were taking in the local lads and welcomed them to the gathering.

Mr. P. Lavelle who replied said he thought it should be the ambition of every lad to so conduct himself so as to make his parents proud of him. Helpfulness and respect to their elders and by cultivating a spirit of tolerance were things which would win favor and distinction for the lads.

John Soukup, the representative to the boys' parliament, gave an interesting account of the work done at the last session. He also said an effort was to be made to form another group in this territory which was now too large to be represented by one member. He also referred to the \$9,640 which is to be raised for carrying on the work in the province and made an appeal for financial support from those interested. He considered it a great honor to be chosen as the

representative to the parliament.

C. T. Hall proposed the toast to "the Lads." He said it gave him a feeling of tranquility and complaisance to see the way the boys of today were being hammered out on the anvil of service to better fit them for the men of to-morrow and he assured them they need not be ashamed to tell the world that they belonged to the Taxis group of Redcliff.

Bill Palmer responded. Bill told the dads they should remember they were once boys themselves, and that the best results would be obtained from more sympathy and understanding between the dads and lads.

The toast to "the Community" was proposed by Elmer Congram who asked the question: "Does the man make the community or the community make the man?" He then pointed out that the success or failure of the community depended on the work and actions of its individuals all have an influence and must use it for good or ill.

Mayor Worts in replying stressed the importance of regular attendance at Church and Sunday School and reminded the elder boys that they should set a good example for the younger lads.

Mr. Wm. Henderson spoke on "The Church." He said it was a most encouraging sign to see the interest taken in the Church by the lads present and the manner in which they had conducted themselves. The Church he said was one of the greatest organizations on earth and was doing more for humanity than any other institution. Although the Church is sometimes criticized through ignorance he assured the boys they would never regret doing all they could to help along this noble organization.

Eric Congram proposed the toast to "The Home," which, he said, was the most sacred place on earth, and he likened it to the balance wheel of the nation, as the best men come from the best homes.

In responding Mr. J. Stratton said the most ideal homes are where God is found. It is when sickness or trouble visits the home that the real test of sacrifice and sympathy is shown by its members.

The toast to the School was proposed by Mr. C. Buchholz. He

(Continued on Back Page.)

Organized a Tennis Club Here Monday

Was Fairly Well Attended And Officers Elected.

Although there were several other attractions last Monday evening the meeting called for the purpose of organizing a Redcliff tennis club was fairly well attended, and all present showed a keen interest in the movement. A. R. Ballantyne was appointed chairman and Dr. Ward outlined a suggested plan for making two excellent courts on Broadway just east of Third St.

After some discussion it was decided to organize and the following officers were elected:

Pres.—Dr. A. E. Ward.
Vice Pres.—L. J. Tremblath.
Sec. Treas.—F. Hansen.

These officials will select the executive committee.

A canvass for members will be made at once and much will depend on the result of this canvass as to how far the committee can go in preparing the grounds.

Any desirous of joining the club should see any of the above officials as soon as soon as possible.

Communists in Canada yesterday celebrated what they call "Struggles Day." It is estimated that hundreds were hurt in riots in Eastern Cities. Twenty leaders were arrested.

East and west passing trains were delayed about eight hours passing through here last Tuesday owing to a bad wreck just a few miles west of Bowell. Two engines and several freight cars were thrown off the rails about noon. It has not been stated just what caused the derailment. Fortunately no one was seriously hurt.

Diamond D Footballers Have Successful Event

Hall Well Filled For The Whist Drive and Dance.

Cliff Hall was filled to capacity for the Glass Factory Football Club's Whist Drive & Dance held last Friday evening. In order to accommodate the large number additional tables had to be provided for the whist players and even at that it was impossible to find room for some of the late arrivals. The game proved very interesting and closely contested. When the scores were tallied up it was found that Mrs. E. Filippuzzi had the highest score and won the first prize. Mrs. D. McLachlan won the ladies second prize. The Gents first was won by R. Fairbairn and the second by Mrs. Pahnau who played as a gent. The Consolations were won by Mrs. Titting and Mrs. F. Cann.

Although the floor was slightly crowded for the dance all were so well pleased with the music, the splendid attendance and the jolly crowd that the overcrowding was not noticed and all thoroughly enjoyed it.

The spot waltz was won by Jim Podesta and Miss Stevenson, and the old fashioned waltz was won by Miss Terry Walker and Lloyd Williamson.

During the evening a most appetizing lunch was served. All were loved in their praise of the splendid manner in which the committee looked after every detail.

The Club expects to clear in the neighborhood of \$80.00 as a result of their venture. This should give them a good start for the season's operations.

Motor Licenses Are Reduced This Year

Those Who Have Already Paid To Get Rebate.

Starting immediately, motorists who have already purchased their 1931 automobile license plates will get a handout from the government of \$5. Arrangements are being made by the staff of the deputy provincial secretary's office to refund this amount at once to the holders of licenses in the order in which the plates were purchased.

No application is necessary, and no correspondence is being entered into regarding the rebates which are being made following the announcement of this tax reduction in the 1931-32 budget brought down in the House by Hon. R. G. Reid, Friday afternoon. It is expected that about two weeks will be required to complete sending out the rebate cheques to the 22,000 motorists throughout the province who have already bought their 1931 licenses.

License plates for 1932 will be available in the usual way at the end of the present year, except that the fee will be a straight \$5 lower in each case.

SCHOOL BOARD SETS ESTIMATES FOR YEAR

At the last regular meeting of the School Board the estimates were set for the year. In all departments the estimates were the same as last year.

"I paid sixpence for this egg and got a chicken."
"A chicken? Then that will be two shillings more."—Bummer.

Too much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as headache, gas, heartburn, etc., will disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prescribed by doctors for conditions due to excess acid. It is always a liquid; it cannot be made in tablet form. Look for the name Phillips' and the word genuine in red.

WORLD HAPPENINGS BRIEFLY TOLD

The first month's operations in the Alberta government's new department of lands and mines yielded a total revenue of \$18,250.

Alarm over the continued depletion of the halibut resources of the north Pacific is expressed in the seventh report of the International Fisheries Commission.

Tax on gasoline brought the province of Ontario \$10,756,000 for the year ending October 31, last, Ontario department of highways' figures show.

The British museum announces discovery by its own and the University of Pennsylvania's expedition tour, of tombs of the great kings of the third dynasty, dating about 2600 B.C.

Cigarette consumption in Germany amounts to 32,000,000 yearly or about 200 to each inhabitant, while consumption of cigars reaches about 100 per person.

The recent visit of the Canadian trade delegation to the Orient was an immeasurable stimulant to trade relations, and should increase materially the imports and exports of China and Japan, according to G. I. Barr, general agent of the Canadian National Railways at Shanghai.

Among the Christmas gifts received by the Pope was an apparatus for recording dictation, by Thomas A. Edison. The plaintiff, who was connected with the machine and sent a message of appreciation to the inventor, whom he also awarded the annual Papper medal in gold.

A trans-Atlantic telephone service is now available between the British Isles and all parts of Canada and Mexico. Therefore the service extended only to the principal cities of those two countries. With the new equipment, the service will connect England to all parts of North America, including Cuba.

B.C. Police Use Radio

System Covers Territory From Alaska To International Boundary

Getting your men by radio is the new method used effectively on the British Columbia coast by the provincial police. Operating out of the most complete and successful shore-to-shore wireless chains on the continent, the British Columbia police radio system has installed 3,000 messages, containing 180,000 words, at its seven stations in the first year of operation. Many smart captures are credited to the system, which keeps the headquarters in Victoria in touch with its far flung posts from the Yukon to the international boundary.

Ship-To-Shore Phones Busy

The novelty of calling people on shore has been a happy one for fishermen off the Welsh coast since the installation recently of the ship-to-shore telephones at Cardiff and Swansea. They have kept the lines busy by calling friends. The service also covers vessels in dock, captains being able to telephone local owners, brokers or relatives at home for a total charge of 80 cents a day.

Misery loves company, but it is better to have realism than to be left in both.

Veteran Mountie Dies in Italy

Captain Deane Was Superintendent Of Force At Regina In 1884

Soldier, author and Royal North West Mounted policeman, Capt. Richard Burton Deane, age 82, who served with R.N.W.M.P. for 33 years and was superintendent of the force at Regina in 1884, died at Desio, Maritima, Italy, on December 13.

Captain Deane, retired from the force in 1913 after writing a history of the R.N.W.M.P., and moved to England. Owing to a bad heart condition, he never moved to Italy, where he lived until his death.

Born in India, Captain Deane went to England at the age of four years and was educated there, completing his education at the military college at Sandhurst.

He joined the Royal Marines, was assigned to H.M.S. Warrior, on which he served for two years. After seeing service along the West Coast, and other foreign waters for several years, he retired and came to Canada in 1882 with the idea of taking a commission in some Canadian regiment.

A year later he was appointed as inspector for the R.N.W.M.P. and in 1884 was appointed superintendent of the force and transferred to Regina. He later served at Calgary, Hagle Creek and Lethbridge during times of trouble.

Among the honors won by Captain Deane during his long service are those gained during the Riel rebellion and the coal mine lockout at Lethbridge. In 1885 he had charged 1,835 and about 50 half-breed prisoners.

In the Lethbridge lockout he brought the strike, which was threatened mutiny, to a sudden close.

Among his published works was the first manual of the mounted police, which he wrote when he was inspector, and a history of the force.

Will Treble Advertising

Cereal Firm Realizes Big Percentage Of People Able To Buy

A concern that sells cereal foods in packages announces that it will meet the challenge of depression by trebling its advertising campaign during the coming year. It is confident that this expenditure will result in sales sufficient to show an increase in business in 1931.

The reasoning followed by the heads of this cereal concern is sound.

With the increase in unemployment and reduction of revenues the great percentage of people on this continent are still in a position to live comfortably, to pay for their requirements, and to so conduct their affairs that they are enabled to enjoy a profit from its services.

But many firms are unable to see the situation in that light. When their sales revenue they are inclined to become fatalistic, making little effort to battle against adverse conditions.

Now blue and faded broadcloth with vivid red contrast, red velvet and squirrel fur at the neckline is so cute.

Plaid woolens, velveteen and wool velvet make up nicely. This pattern may be obtained in sizes 2 to 8. It is ready for immediate delivery. It is hand cut.

Ensemble Pattern Of Moose Jaw

According to reports read at the annual raters' meeting in Moose Jaw, the other day, the city is in a better financial position than at any other of the same time in the Dominion.

Altham Johnston of the finance committee predicted a decrease in the city taxes next year.

Daytime of New Zealand are installing electrical equipment.

Heart and Nerves So Bad

Was Unable To Sleep For Hours

Miss Theresa M. Ravary, Collingwood, Ont. writes: "I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them, for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

Honor C.P.R. Official

Automobile Horn Is Only One Of The Modern Nuisances

The older generation of members, perhaps not unpleasantly because of the charm the distant past throws over such memories, the noise of the city before the days of rubber-tired vehicles. There were the street-cars, innocent of all ball bearings, rattling about the rear of the iron-wheeled wheels on the cobblestone pavements and the steady pounding of the horse's iron-shod feet.

A change has come over the cities. Noises are largely of other varieties. Iron tires have given place to rubber tires, the automobile slips silently along, or should do so, over smooth pavements of asphalt.

But new noises have appeared. The worst are from the horns of the motor-cars, or from the exhausts of their engines. Mufflers have been provided for the latter, but the horn nuisance persists. This would seem to be largely because of necessity. The driver who attempts to move the traffic by the din he makes with his horn has become a nuisance.

An Bang student of city noise suggests that as there is a limit to the amount of space a man or a vehicle may claim in a city street, so there is a limit to the amount of uproar he is entitled to raise in a city street.

The radio listener may tune out the unnecessary atmospheric annoyance, but one cannot tune out the street noises that annoy and distract.

Canadian Method Approved

Doctors Of Europe Commend Idea Of Expert Anesthetists

Canadian scientists are now recognized the world over and particularly in Europe. Dr. Pierre Z. Rheume, delegate of the Association des Medecins de Langue Francaise, from Montreal to the Paris convention of La Societe de Chirurgie Francaise, stated upon his return from Europe.

His technical knowledge had resulted from the convention held in Paris, Dr. Rheume said, but the most pleasing and the most interesting was the commendation of the Canadian method of making use of specialist anesthetists. The services of these experts are often used but the presence of nurses and internes is always considered as necessary in other countries of the world.

Advice Of Indian Chief

"Stay awake to live long," is the advice of Chief White Horse Eagle, who claims to be 109 years old. He gave it to newspapermen, as he stopped in Chicago on route home to the Ojaga Indian territory in California, after a visit to Europe. "I only sleep four hours a day," he said. "People sleep too much; makes the blood sluggish."

Canadian Petroleum

The chief petroleum producing area in Canada are the Turner Valley field in Alberta; and the Petrolia and Enskillen, the Oil Springs, and Belovell fields in Southern Ontario.

New Noises Worse Than Old

Automobile Horn Is Only One Of The Modern Nuisances

The older generation of members, perhaps not unpleasantly because of the charm the distant past throws over such memories, the noise of the city before the days of rubber-tired vehicles. There were the street-cars, innocent of all ball bearings, rattling about the rear of the iron-wheeled wheels on the cobblestone pavements and the steady pounding of the horse's iron-shod feet.

A change has come over the cities. Noises are largely of other varieties. Iron tires have given place to rubber tires, the automobile slips silently along, or should do so, over smooth pavements of asphalt.

But new noises have appeared. The worst are from the horns of the motor-cars, or from the exhausts of their engines. Mufflers have been provided for the latter, but the horn nuisance persists. This would seem to be largely because of necessity. The driver who attempts to move the traffic by the din he makes with his horn has become a nuisance.

An Bang student of city noise suggests that as there is a limit to the amount of space a man or a vehicle may claim in a city street, so there is a limit to the amount of uproar he is entitled to raise in a city street.

The radio listener may tune out the unnecessary atmospheric annoyance, but one cannot tune out the street noises that annoy and distract.

Polishing The unnecessary noise

of a city is a far more difficult problem than that of policing its smoke—and that has been found difficult enough. A householder may no longer have his garbage out into the street, or pile it in his yard to disturb a neighborhood with offensive odors. So far we have come. But he may still empty a large amount of unnecessary noise out upon a neighborhood with his automobile horn or by his fault-finding efforts to start an unwilling car.

This must be one of the problems of the future, that we read of, namely, policing the city's unnecessary noise. And it is a problem of the countryside as well. We cannot dislodge our neighbors' atmosphere with vile smells without getting into trouble. Why have not the neighbors an equal right to the atmosphere undisturbed by hideous and unnecessary noises?

Canada's Mineral Resources

At the opening of this century, gold and coal were the only two large items of Canada's mineral production. Today the Dominion mining industry owes its magnitude not only to coal, but to copper, nickel, lead, silver, zinc, asbestos, and, in short, to perhaps as wide a diversity of resources as any country affords to modern enterprise.

A field of fossils in Nevada which was plotted 27 years ago is still producing steel.

To Solve Origin Of Human Race

British Scientist Goes To Africa To Discover People Of Dual Sex

Dr. Arthur Trenchard, of London, England, a fellow of the Royal Society of Great Britain, has announced plans for an expedition in February to Africa, in which he said he hoped to determine the origin of the race.

"We will try to reach a people of dual sex we believe live near Lake Chad," he said. "My interest first was aroused when I encountered some of these peculiar people in Nigeria in 1924."

"I tried at that time to reach Lake Chad but was forced to turn back when advances members of my party were killed by a fierce tribe of desert nomads. I was halted again in 1926 by desert storms."

"It is my belief that the original human being was a person of dual sex. The influence of climate, the necessity of making a living and the need for expanded children, to my point of view, caused the division of the first human beings into two sexes. We hope to prove the long existing theories of people by examining skeletons."

Canadian Sheep Breeders' Association

Announcement Is Made Of Election Of Directors For 1931

Mr. R. W. Wicks, secretary of the Canadian Sheep Breeders' Association, announces that the mail ballot closed December 15th, 1930, electing directors for the Maritime, Manitoba, Saskatchewan, Alberta and British Columbia, resulting as follows: Maritime Provinces, A. S. McDonald, Esq., Judque North, N.S.; Manitoba, George Gordon, Oak Lake, Man.; Saskatchewan, W. C. Hiron, Hinton, Sask.; Alberta, John Wilson Jr., Innisfail, Alberta; Geo. E. Ball, No. 2, Strathcona, Alberta; British Columbia, Leonard Higginson, No. 5, Sardis, B.C.

The directors for Ontario and Quebec will be elected at the Provincial annual meetings of the Sheep Breeders' Associations taking place in February.

May Eliminate Deadly Gas

Inventor Claims New Device Will Remove Menace Of Carbon Monoxide

Monoxide

Virtual elimination of carbon monoxide is claimed from a carburetor invented by John Juhaz of New York.

The device also permits the use of gasoline, kerosene or fuel oil in any automobile, motorboat or other internal combustion engines. It was reported by industrial physicists and engineers to whom it was submitted. It has three carburetor chambers instead of one, with a separate nozzle in each, and five outlet holes in each nozzle.

Many folks who think they're above the elevator for heaven will never get past the mezzanine floor.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is cut, cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but glass.

allows the full sunlight to enter, including the ultra-violet rays, which do not penetrate ordinary glass.

CUT DOWN FOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BROODER HOUSES LAYING PENNS DAIRY BARN SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CECIL T. HALL

Druggist

Interesting Local Items

Mr. and Mrs. W. H. Foster, of Harding, Man., have been visiting their daughter, Mrs. A. N. Collard for the past week.

Keep in mind the whist drive and dance in Cliff Hall Friday evening of this week under the auspices of the local Legion.

If you want to meet your friends to night, (Thursday) you will find them at the young peoples' concert at Gordon Memorial.

R. S. Further, J. Ehrman and J. Schneider motored to Calgary last week end on business. The report a successful trip as the roads are in good condition.

Orval Rae of the Bowell district moved a fine house from town to his farm this week. N. Dacre had the contract and made a good job of it.

Pringle Henderson, who has been in Calgary taking a special course on work in connection with his position at the glass plant, returned home last week-end.

SURPRISE PARTY

At the home of Mrs. A. Podesta a surprise party was held in honor of Mrs. E. Filippuzzi, the eldest daughter of Mrs. Podesta, who left for her home in Oakland, California on Wednesday night. A large number of friends were present to enjoy a splendid evening of Cards and games. Whist was played and the winners were Geo. Davies, Men's first; Mrs. C. Newham, Ladies first. The Consoletions were won by Mrs. Male and Mr. Hulbert. After cards, games of all descriptions were played. At midnight a dainty and enjoyable lunch was served. Games were resumed for an hour after lunch. All left in the best of humor and reported having a most successful and enjoyable evening.

A Defence of Canada's Wheat Pool

Pamphlet Dealing With Pool Business Obtainable Free.

The Alberta Wheat Pool has issued a pamphlet entitled "A Defence of Canada's Wheat Pool." This is a reply to a pamphlet by Mr. S. S. Campbell, of London, England, which contains a scathing criticism of the Canadian Wheat Pool.

"A Defence of Canada's Wheat Pool" presents the situation in an entirely different light from the presentation made by Mr. Campbell. It says that Mr. Campbell is unfair and extremely prejudiced and accuses him of being "just another grain trade propagandist."

The Pool booklet states that far from being an expert in grain economics, Mr. Campbell is actually a small figure in that field that his accomplishments are meagre in that line and that he is really the main figure in a comparatively inconspicuous grain statistical service. It is pointed out that the Campbell service mislead its clients very seriously last year, even going so far as to inferentially predict that Russia would be an importer of grain last year.

Each chapter of Mr. Campbell's pamphlet is taken up in sequence and answered in very considerable detail. A wealth of statistics and authoritative statements are presented, and a complete world picture of the happenings in the world wheat situation during the past year or so is given. The pamphlet provides interesting and educational reading. Copies are available without any charge on application to the Alberta Wheat Pool, Calgary, Alta.

Father and Son Banquet Was A Great Success

(Continued from Page 1)

dealt with the great advantage along educational lines which the boys of today enjoyed and said that along this line as well as others the boys should remember that "What they sow that shall they also reap."

Replying to this toast principal King of our School, said that the education of our boys and girls was the greatest industry of our age. Twenty per cent. of our provincial budget expenditure is devoted to education. The function of modern Schools is three fold (1) to prepare pupils to become efficient economic factors, (2) to prepare him for participation in duties of social, civic and political life, (3) to lead to personal happiness.

To show the fallacy of the expression sometimes heard that education is not necessary to success, Mr. King gave figures showing how the average life of man had extended from 21 years in the middle ages to 61 at the present time. Telling this as a fact he said that the average boy today would have an earning span of about 40 years after completing his education. He then quoted figures from statistics to show that the average life earnings of a public School graduate are \$64,000; of a high school graduate \$80,000 and of a University graduate \$144,000. This he pointed out, showed that apart from what education pays in personal happiness that it also has an actual dollars and cents value.

Magistrate Ellis and Rev. W. Cann of Medicine Hat also gave splendid addresses full of timely advice for the boys.

Ted Maskell, in a very appropriate manner tendered a vote of thanks to the mothers.

During the evening Geo. Ballantyne gave a selection on the piano; Ted Harris a Mouthorgan selection; Bob Pow a recitation and Albert Lien sang a solo all of which were well rendered and much enjoyed.
